RESOLUTION NO 1286

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF REDMOND, WASHINGTON, APPROVING A DEVELOPMENT AGREEMENT (FILE NO L090012) FOR THE KING COUNTY METRO VAN DISTRIBUTION CENTER PROPERTY LOCATED AT 18655 NE UNION HILL ROAD

WHEREAS, King County is the owner of certain property located at 18655 NE Union Hill Road, which the County operates as a Metro Van Distribution Center, and

WHEREAS, King county has applied to the City of Redmond for a development agreement in order to ensure that it can accomplish a planned expansion of the Van Distribution Center, and

WHEREAS, pursuant to RCW 36 70B 200, the City Council held a public hearing on the proposed development agreement on February 17, 2009, continued to March 3, 2009, and, after considering the testimony given at the public hearing and all other relevant information, determined to approve the development agreement

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF REDMOND, WASHINGTON, DOES HEREBY RESOLVE AS FOLLOWS

Section 1 Development agreement approved The Mayor is hereby authorized to sign a development agreement with King County that substantially conforms to the agreement entitled, "Development Agreement between King County and City of

RES 1286

Redmond for Van Distribution Center," attached hereto as Exhibit

A and incorporated herein by this reference as if set forth in

full Said development agreement is hereby approved by the

Redmond City Council

Section 2 Recording As provided in RCW 36 70B 190, a signed original of the final development agreement shall be recorded with the real property records of King County, Washington and shall be binding on the parties and their successors and assigns

ADOPTED by the Redmond City Council this 3^{rd} day of March, 2009

Exhibit A Revised Proposed Development Agreement

WITH CHANGES NOT YET REVIEWED OR APPROVED BY COUNTY

DEVELOPMENT AGREEMENT BETWEEN KING COUNTY AND CITY OF REDMOND FOR VAN DISTRIBUTION CENTER PROPERTY

THIS DEVELOPMENT AGREEMENT ("Agreement") is entered into this
day of, 2009 ("Effective Date"), by and between KING
COUNTY, a Washington county ('County"), and the CITY OF REDMOND, a
Washington optional municipal code city ("City") The County and the City are
sometimes collectively referred to as the "Parties" and individually as the "Party"
RECITALS
A The County is the owner of certain real property (the 'VDC Property')
whose common address is 18655 NE Union Hill Road, Redmond, Washington and which
is more particularly described on Exhibit-1 attached hereto and incorporated herein by
this reference as if set forth in full The VDG, Property is currently developed with a
Metro Transit Van Distribution Center ('Van Distribution Center')
B The City is the fee owner of the real property directly adjacent to the VDC Property, which is more particularly described on Exhibit 2 attached hereto and
Property, which as more particularly described on Exhibit 2 attached hereto and
incorporated herein by this reference as if set forth in full (the "Regional Storm Water
Facility Property" or "RSWF Property") The Regional Storm Water Facility Property is
the current location of the bioswale and stormwater detention facility serving the existing
improvements on the VDC Property
The City purchased the RSWF Property from the County in accordance
with the terms and conditions of the Purchase and Sale Agreement dated the
day of ("PSA") to which this Agreement was attached as Exhibit
D Pursuant to the terms and conditions of the PSA, the City intends to build
a regional storm water detention and treatment facility on the RSWF Property in
accordance with the construction plans attached to the PSA as Exhibit D ('Construction
Plans') The Construction Plans provide that the City shall size and construct the
Regional Storm Water Facility to accommodate all stormwater drainage generated by the
current improvements on the VDC Property, as well as any improvements that may be
constructed on the VDC Property in the future For the purpose of calculating the amount
of the drainage to be accommodated, and for that purpose only, the City has assumed that
the VDC Property may be developed with one hundred percent (100%) impervious
surface

- E Since the RSWF Property is the current location of the bioswale and stormwater detention facility serving the existing improvements on the VDC Property, the City has agreed at all times including prior to construction of the Regional Storm Water Facility, to be responsible for accommodating on property other than the VDC Property all storm water drainage generated by the current improvements on the VDC Property, as well as any improvements that may be constructed on the VDC Property in the future
- F In conjunction with this Agreement, the City also approved a binding site plan dated February 18, 2009 ('BSP") that created 2 distinct and separate lots known as Lot 1 (VDC Property) and Lot 2 (RSWF Property) The BSP is also an integral part of the development process in that it also contains benefits to the County with respect to the development of the VDC Property A copy of the BSP is attached to the PSA as Exhibit 3, and is a material part of the development process and as such is incorporated herein as if fully set forth
- The County has plans to expand the services it provides from the VDC Property via an expansion of the present facility by increasing the number of parking stalls and possibly construct a car wash sometime in the future and desires to firmly fix the development standards and other City code provisions that will apply to and govern and vest the development, use, and mitigation of development on the VDC Property, whether for an expansion or redevelopment of the current transit van distribution use or for any other development or redevelopment of the property. The City and County agree that the appropriate mechanism for accomplishing the County's objectives is the approval of a development agreement pursuant to RCW 36 70B 170, et seq
- H. The Parties acknowledge that in addition to the City's payment of the Purchase Price for the RWSF Property, the County would not consider entering into a PSA for the sale of the RSWF Property but for the County being able to develop the VDC Property in accordance with the terms herein in such a manner that is both economical and expedient for the County
- I A development agreement between the County and the City is a collaboration that will provide mutual benefit to the Parties as well as the region, by providing certainty for the County's expansion of the Van Distribution Center and that will enhance the transit service provided from the Van Distribution Center and, thereby, reduce traffic in the areas benefiting from such service, including the City of Redmond
- J Through this Agreement, the County and the City desire to establish provisions for the future development of the VDC Property as outlined herein. This Agreement is intended, at a minimum, to ensure the County can develop the VDC Property as it plans by addressing, among other issues, stormwater management and quality measures, mitigation measures and impact fees. Execution and implementation of

this Agreement is material consideration for the transfer of the Regional Stormwater Facility Property to the City

K The Parties also acknowledge that if the City had not purchased the RSWF Property from the County, the County would have had to reconstruct its stormwater detention facility in order to comply with the wellhead protection requirements set forth in Section 20D 140 50 of the Redmond Community Development Guide (RCDG), and that the County is receiving a significant cost savings from not having to do so

L All Exhibits and Recitals referenced in this Agreement are herein incorporated by reference and shall be considered as material terms of this Agreement

Accordingly, for valuable consideration, including without limitation, the sale of the RFWSP to the City, the Parties agree as follows.

1 General Provisions

Vested Rights The provisions of the RCDG and Redmond Municipal Code ("RMC") in effect on the date this Agreement's signed by both parties shall apply to and govern and vest development; redevelopment, alteration, expansion, use and mitigation of the development of the VDC Property, except as otherwise provided in this Agreement or by state or federally mandated laws preempting the City's authority to vest regulations for such redevelopment, alteration, expansion, use and mitigation Any amendments or additions made during the term of this Agreement to zoning or development regulations, transportation concurrency regulations. State Environmental Policy Act ("SEPA") regulations and substantive SEPA policies or other laws, ordinances, comprehensive plan policies or other policies governing land development that may be applicable to the Development (hereafter defined) shall not apply to or affect the conditions of the Development, except as otherwise provided in this Agreement However, pursuant to RCW 36 70B 170 and 180, the City reserves authority to unpose new or different officially adopted regulations of general applicability, but only if, and to the extent required by, a serious threat to public health and safety, as lawfully determined by the City Council after notice and an opportunity to be heard has been provided to County County may request to be bound by future amendments to the RCDG or the RMC, and such request shall be approved administratively provided that, as a result of being subject to such amendment(s), the Development will have no significant, unmitigated, adverse impacts from any new proposed land use Except for the termination date, any of the dates set forth in this Agreement may be revised administratively by mutual agreement between County and City staff Otherwise, all revisions to this Agreement, to which the County approves, shall be reviewed by the City Council, as provided in this Agreement, as an amendment to this Agreement The Development shall not be subject to any development moratoria

the City may adopt subsequent to the date of this Agreement unless necessitated by a serious threat to the public health and safety

B Building and Construction Codes Except as otherwise provided in this Agreement, all development, redevelopment, alteration, or expansion of development on the VDC Property shall comply with the building and construction codes of the City of Redmond in effect at the time a complete application for construction of any development, redevelopment, alteration, or expansion is filed. Such building and construction codes include, but are not limited to, the International Building Code, the International Residential Code, the International Fire Code, the International Property Maintenance Code, the National Electrical Code, the Uniform Mechanical Code, the Uniform Plumbing Code, the Washington State Energy Code, the Washington State Ventilation and Indoor Air Quality Code, and the City of Redmond Construction Standards, all as adopted and modified by the City

C Stormwater Detention and Treatment

Any development redevelopment or expansion on the VDC Property shall comply with the stormwater flow and quality standards that are in effect on the date this Agreement is signed by both parties unless a serious health crisis for humans or animals will be lessened if the County is required to comply with the thencurrent stormwater quantity and quality standards, provided that existing development of the VDC Property at all times shall be subject only to the storm water flow and quality standards in effect at the time the existing development was permitted Current city-wide standards for stormwater flow and quality controls consist of the 2005 Department of Ecology ("DOE") Stormwater Management Manual for Western Washington (the '2005 DOE Manual") as modified by the City of Redmond - Clearing, Grading and Stormwater Management Technical Notebook (the "Stormwater Technical Manual") Issue Number 5, effective January 1, 2007, or as modified by this Agreement Portions of the proposed Development are located in the City's well-head protection zones Any development, redevelopment or expansion on the VDC Property shall be vested to the version of the City's wellhead protection regulations contained in RCDG 20D 140 50 in place on the date both parties sign this Agreement unless the City determines that a serious threat exists to the public health and safety pursuant to RCW 36 70B 170 and RCW 36 70B 180 and declares an emergency /

Additional Flow Control During the Term (hereafter defined) of this Agreement, the County shall not be required to bring any of the prior-existing improvements to the VDC Property into compliance with stormwater detention requirements that may be adopted subsequent to the date both parties sign this Agreement unless the City determines that a serious threat exists to the public health and safety pursuant to RCW 36 70B 170 and RCW 36 70B 180 and declares an emergency or unless required to do so under the provisions of RCDG 20F 10 50-090 relating to the alteration and expansion of nonconformances

- The City is in the process of creating a City-approved, regional stormwater facility that would serve the basin where the VDC Property is located ('Regional Storm Water Facility or 'Facility) Once the City constructs the Facility, the County may participate in, and utilize, the Facility Provided however, that County shall not be required to delay or forgo any development to accommodate construction timing for the Facility If County utilizes the Facility, the stormwater flow control and water quality treatment provided by that facility shall be equivalent to the level of flow control and water quality treatment that would otherwise be required under this Agreement for any development, redevelopment, expansion or use of the VDC Property and shall satisfy all development standards regarding stormwater flow and quality
- 4) The County shall not be required to make any capital contribution toward the construction of the Regional-Stormwater Eacility or any other storm water management facility constructed to accommodate storm water from the VDC Property or pay any stormwater connection fee to the City for the City's receipt, detention, and treatment of the drainage from the improvements on the VDC Property that are in existence as of the date this Agreement is signed by both parties. Pursuant to RCDG 20F 10 50-090, the County or its successors and assigns shall be required to make capital contributions for alteration, expansion or redevelopment of the VDC Property as follows
- a) In the event that the County constructs the Development (the 100 parking stalls and car wash facility), then the County shall be required to pay the City the lesser of (1) the SE Redmond Regional Facilities Surcharge in effect at the time construction permits for the Development are issued for each square foot of impervious surface added to the VDC Property, or (11) Four Dollars (\$4 00) for each square foot of such impervious surface

b) In the event the County or its successors or assigns, redevelops the VDC Property, constructs improvements on the VDC Property that are different from the Development or further expands, adds to, or enlarges the improvements on the VDC Property beyond that proposed in the Development, then if, during any three year period

the total amount of impervious surface added by the construction or expansion, addition, or enlargement exceeds the total amount of impervious surface existing on the VDC Property prior to issuance of the first permit for construction, expansion, addition, or enlargement during the three year period, or

the total cost of all construction, expansion, addition, or enlargement during the three year period, as stated on approved building or construction permits exceeds the assessed value of all improvements on the VDC Property at the beginning of the three year period,

then the County shall be required to pay the City the lesser or (a) the SE Redmond Regional Facilities Surcharge in effect at the time construction permits for the construction, expansion, addition, or enlargement are issued for each square foot of impervious surface (including pre-existing impervious surface) on the VDC Property after the construction, expansion, addition or enlargement or (b) Four Dollars (\$4 00) for each square foot of such impervious surface

c) In the event that redevelopment, construction expansion, addition, or enlargement as described in (b) above does not exceed the impervious surface or value threshold described in (b)(i) and (ii) above, then the County or its successor(s) in interest shall only be required to pay the City the lesser of (i) the SE Redmond Regional Facilities Surcharge in effect at the time permits for the amount of impervious surface added to the VDC Property by the redevelopment, construction, expansion, addition, or enlargement, or Four Dollars (\$4 00) for each square foot of such impervious surface

(d) The right to pay only the SE Regional Facilities Surcharge or alternate Four Dollar per square foot amount described in this section shall run with the VDC Property

- 5) Payment of the SE Redmond Regional Facilities Surcharge or the alternative \$4 00/SF stipulated amount provided for in this section shall relieve the County of any further requirement to pay a facility charge or connection fee for the regional stormwater facility for the Development Payment of the capital contribution shall not relieve the County from payment of any other fee associated with stormwater collection that are assessed against all other property owners for participation in the storm water facility and treatment, including but not limited to connection fees for facilities other than the regional stormwater facility and monthly stormwater utility fees Payment of any capital contribution shall not entitle the County to any ownership interest in the regional stormwater facility and the facility shall be solely owned by the City
- 6) The County shall comply with all applicable point source discharge standards for the discharge of drainage into the City's stormwater system, including but not limited to, the discharge of hazardous or other prohibited or regulated materials into the stormwater system
- D <u>Development Approval Process</u> Any development, redevelopment, expansion, use or mitigation on the VDC Property shall be approved through the site plan entitlement or applicable process as provided in the RCDG. The City shall not impose any condition on the development that is inconsistent with any provision of this Agreement or the BSP unless necessary on account of a serious threat to public health and safety pursuant to RCW 36 70B 170 and RCW 36 70B 180

- E <u>Subdivision</u>, <u>Lease or Transfer</u> County may subdivide, lease, or transfer ownership of the VDC Property or a portion thereof to other entities. The benefits and obligations of this Agreement shall run with the land and continue following the subdivision, leasing, or transfer of ownership, as set forth herein
- 2 Specific Development Provisions In addition to the broad general vesting of development standards as provided in Section 1 above, the following specific terms shall apply to the proposed expansion of the Van Distribution Center on the VDC Property depicted in and described by the BSP ("Development") Except as expressly provided herein, the terms in this Section 2 do not apply to any development other than the Development shown on the BSP
- A <u>Expansion</u> The City agrees that the one hundred (100) additional parking spaces/stalls, car wash facility, fences, existing radio tower as shown on the BSP attached to this Agreement as **Exhibit 3** are permitted uses within the zoning district in which the VDC Property is located and are otherwise consistent with the requirements of the RCDG and RMC No special use permit is required for such uses
- B Traffic mitigation The County Property currently generates fewer than thirty (30) p m peak hour trips The Development will not result in thirty (30) new p m peak hour trips The Parties therefore agree that no traffic study, off-site traffic improvements, or other off-site traffic mitigation requirements shall be imposed by the City through SEPA review of any permit for the Development
- C Car Wash Facility No special use permit shall be required by the City in order for the County to include a car wash facility for transit vans in any enlargement, alteration, expansion, or redevelopment of the current transit van distribution use. The County will be required to obtain any and all other required City permits to construct a car wash facility, including but not limited to building permits, electrical permits, mechanical permits, plumbing permits, water connection permits, and sewer connection permits. The car wash facility shall include a water reclamation and recycling system. Surplus water may be discharged to the City s sewer system provided that the same meets all requirements of the City and Metro for discharge of materials into the City sewer system and the Metro system.
- D Public Utilities The City acknowledges that there is sufficient water and sewer capacity in the vicinity of the proposed Development. So long as the requirements of this Section are met, and provided further that the City has not declared a water or sewer capacity crisis, which is out of the City's control, the City and County agree that sufficient sewer and water capacity will exist for the Development. Further, the City shall not withhold any site plan entitlement review or building permit approval on account of insufficient water or sanitary sewer capacity to accommodate the Development unless such a declaration is made. In the event that the City declares such a crisis during the term of this Agreement, the City shall reserve the next available

capacity, considering existing previous obligations as of the date of this Agreement for the Development Miscellaneous utility line improvements will be addressed through the City s site plan entitlement process identified above

- E <u>Existing Radio Tower</u> The City acknowledges that the existing radio tower on the VDC Property is a legal nonconforming use and agrees to continue to treat the tower as such
- F Fence The County may construct a visual attenuation and security fence along the perimeter of the VDC Property at all spot in which the City is not installing a fence. The fence may be up to eight (8) feet high. No special use permit is required for the fence. The County shall be required to obtain a building permit to construct the fence as required by the state building code.
- G Sustainability The City and County recognize that sustainable design is a component of good development County may incorporate sustainable design practices into the Development where feasible and cost-effective. For purposes of other development that the County may undertake on its VDC Property, sustainable features may include
 - Utilizing local and regional materials and labor,
 - Adopting a "cool" roof design with light reflective coating,
 - Installing roof and wall installation that meets or exceeds energy code requirements,
 - Using centralized controls/monitoring for lights, HVAC, & refrigeration
 - Adding skylights;
 - Recycled "gray" water for landscape irrigation, and
 - Planting drought-tolerant & water efficient landscaping

H Landscaping The County may use RSWF Property for purposes of calculating any required landscaping, tree mitigation or any other requirements under either RCDG or the RMC or any other law, regulation, ordinance or requirement imposed for landscaping requirements Landscaping shown on the BSP satisfies the landscaping requirements for the Development pursuant to the current RCDG, RMC and all other applicable laws and rules

- I No Additional Easements/Walking Trail The County shall not be required to grant any additional easements as part of the development process for the Development as is normally required by either the RMC or RCDG. The County shall also not be required to grant or dedicate any walking trail or any other real property rights on the VDC Property as part of the development process for the Development as is set forth in either the Redmond Comprehensive Plan, the Redmond Transportation Master Plan, the RMC or RCDG.
- J Impact Fees The County shall pay any applicable fire, park, and transportation impact fees as required by RCDG 20D 60 and RCDG 20D 210 or

reimbursement agreement with other third Parties for the Development unless otherwise expressly provided for in this Agreement

- K Concurrency The Development is estimated to generate less than thirty (30) new p m peak hour trips and is therefore exempt from concurrency testing under the City's current concurrency regulations. Therefore, no additional concurrency testing will be required for the Development during the Term (hereafter defined) of this Agreement. Any other development, redevelopment, alteration, or expansion of development on the VDC Property will be required to undergo concurrency testing and to fulfill concurrency requirements in effect at the time such development or redevelopment is applied for
- State Environmental Policy Act The City conducted SEPA review L of the BSP that created the VDC Property as a separate lot and has determined that the BSP had no significant adverse environmental impacts. Pursuant to WAC 197-11-600 or 630, the City will use the Determination of Non-significance (DNS) issued for the binding site plan unchanged for the site plan entitlement and subsequent development permits for the Development, subject to the limitations provided in the SEPA regulations Therefore, no mitigation conditions or additional environmental analysis shall be imposed on the Development during the term of this Agreement unless required due to a All other development, redevelopment, serious threat to public health and safety alteration, or expansion of development on the VDC Property pursuant to this Agreement will be subject to SEPA to the same extent it would be subject to SEPA without this Agreement and the SEPA policies that apply will be those in effect at the time the development, redevelopment, alteration, or expansion is applied for Except as provided above, no additional mitigation conditions of environmental analysis shall be imposed on the Development during the Term of this Agreement unless required due to a serious threat to public health and safety pursuant to REW 36 70B 170 and RCW 36 70B 180

Term The term of this Agreement shall be twenty (20) years from the Effective Date ('Term') The City and the County may agree to extend the term of this Agreement, provided that such extension is approved by the Redmond City Council The term Effective Date' shall mean the date that the last Party executes this Agreement and this Agreement is ready for recording with the King County Recorder

- 4 Amendment of Agreement. Any amendment of this Agreement shall require review and approval by the Redmond City Council and the King County Council
- 5 Recording This Agreement shall be recorded in the records of King County, Washington
- 6 Binding Effect, Assignability This Agreement shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and assigns

- Representations and Warranties Each signatory to this Agreement represents and warrants that he or she has full power and authority to execute and deliver this Agreement on behalf of the Party for which he or she is signing. Upon proper execution and delivery, this Agreement will have been duly entered into by the Parties will constitute as against each Party a valid, legal and binding obligation that shall run with the VDC Property, and will be enforceable against each Party in accordance with the terms herein
- 8 Specific Performance and Enforcement. The Parties specifically agree that damages may not be an adequate remedy for breach of this Agreement and that the Parties are entitled to compel specific performance of all material terms of this Agreement by any Party in default hereof All terms and provisions of this Agreement (including the recitals) are material
- Governing Law and Venue This Agreement shall be governed by and construed in accordance with the laws of the State of Washington Venue for any action brought by either Party shall lie in King County Superior Court
- 10 Notice of Default and Enforcement. In the event that either Party, in good faith, believes that the other Rarty has violated the terms of this Agreement, the aggrieved Party shall give the believed offending Party notice of the alleged violation by sending a detailed written statement of the same to the offending Party by first-class mail The notice is intended to invite a resolution by the Parties of any dispute as provided below prior to the institution of litigation. This Agreement may be filed with a court to enforce its terms or to rediress any breach thereof only upon the expiration of thirty (30) days after notice is mailed, at which time the aggreeved Party may file and serve an action for appropriate relief. The thirty (30) day notice period required by the preceding sentence shall not apply in the event that the statute of limitations on any cause of action would run during such period, provided, that the aggrieved Party shall dismiss any action filed under such circumstances if the offending Party cures the breach within thirty (30) days from notice For purposes of this paragraph, the identities and addresses of the Parties are as set forth in the following section The identity or address of any Party may be changed for purposes of this section by written notice to the representative of the other **Party**
- Notices. All notices, requests, demands, and other communications called for or contemplated by this Agreement shall be in writing, and shall be deemed to have been duly given by mailing the same by first-class mail, postage prepaid, or by delivering the same by hand, to the following addresses, or to such other addresses as the Parties may designate by written notice in the manner aforesaid, provided that communications that are mailed shall not be deemed to have been given until three business days after mailing

- 12 Full Understanding The Parties each acknowledge, represent, and agree that they have read this Agreement, that they fully understand the terms thereof, that they have had the opportunity to be fully advised by their legal counsel and any other advisors with respect thereto, and that they are executing this Agreement after sufficient review and understanding of its contents. This Agreement shall be interpreted in liberal manner to allow development of the Property
- Attorney's Fees Should it be necessary for any Party to this Agreement to initiate legal proceedings to adjudicate any issues arising hereunder, the Party or Parties to such legal proceedings who substantially prevail shall be entitled to reimbursement of their attorneys' fees, costs, expenses, and disbursements (including the fees and expenses of expert and fact witnesses) reasonably incurred or made by the substantially prevailing Parties in preparing to participate in mediation or arbitration, to bring suit, during suit, on appeal, on petition for review, and in enforcing any judgment or award, from the other Party or Parties
- Severability. In the event that any section, sentence, clause or phrase of this Agreement is determined to be invalid or unconstitutional by any court of competent jurisdiction, the remaining sections, sentences, clauses, and phrases shall remain viable and in full force and effect.
- 15 Cooperation in Execution of Documents The Parties agree to properly and promptly execute and deliver any and all additional documents that may be necessary to render this Agreement practically effective. This section does not require the execution of any document that expands, alters or in any way changes the terms of this Agreement.
- 16 Equal Opportunity to Participate in Drafting The Parties have participated and had an equal opportunity to participate in the drafting of this Agreement No ambiguity shall be construed against any Party based upon a claim that that Party drafted the ambiguous language
